

COSMO HOTEL HONG KONG ENVIRONMENTAL & SOCIAL SUSTAINABILITY POLICY

Cosmo Hotel Hong Kong is committed to achieving best practice environmental and social sustainability and has partnered with EarthCheck, the world's leading Benchmarking and Certification provider.

Cosmo Hotel Hong Kong features 142 rooms and suites and is situated on Queen's Road East in the district of Wan Chai. The hotel includes an outdoor relaxation area. Starting from 2010, Cosmo Hotel Hong Kong announces its non-smoking policy and becomes the first 100% smoke-free 4-star boutique hotel in Hong Kong. There is no onsite laundry service and there is a bar on ground floor that is outsourced at present.

At Cosmo Hotel Hong Kong, we recognise the activities of our Hotel have the potential for negative impacts on the environment and community if not properly managed. As such we have implemented a Risk Assessment and Environmental Action Plan that meets the requirements of the EarthCheck Company Standard.

Cosmo Hotel Hong Kong is committed to continual improvement measured by way of annual Benchmarking Assessments. The team at Cosmo Hotel Hong Kong strives towards minimising our footprint on the environment by implementing sustainable initiatives aimed at improving the hotel's performance, reducing the use of Energy and Water and the production of Waste.

Cosmo Hotel Hong Kong will comply with all relevant legislation and regulations, and aims to achieve international best practice. We have appointed our Communications Manager as the EarthCheck Coordinator, who has responsibility for improving the Hotel's sustainable performance.

Special consideration will be given to employing and empowering local employees, and wherever possible sustainable products and services will be sourced locally in accordance with Fair Trade principles.

We encourage staff to present our commitment to environmental and social sustainability to all key stakeholders including guests, suppliers and contractors.

Anita Chan
General Manager, Cosmo Hotel Hong Kong
